

RANSOMWARE READINESS CHECKLIST

Use this checklist to evaluate your organization's readiness to prevent, respond to, and recover from a ransomware attack.

THESE FIVE CRITICAL AREAS ARE WHERE ATTACKERS EXPLOIT THE MOST COMMON GAPS.

1. Business Continuity & Downtime

- ☐ Do you have a business continuity and disaster recovery plan?
- ☐ Have you tested your data backups in the last 30 days?
- ☐ Can you estimate the cost of 1-3 days of operational downtime?

2. Compliance & Liability

- ☐ Are you up-to-date on industry-specific regulations (e.g., HIPAA, SEC, FTC, CMMC)?
- ☐ Do you have documented policies for breach notification and response?
- ☐ Do you perform regular compliance audits or reviews?

3. Employee Awareness & Human Error

- ☐ Do you conduct cybersecurity awareness training at least quarterly?
- ☐ Are phishing simulations part of your training program?
- ☐ Can you track employee engagement and improvement over time?

4. Cyber Insurance & Financial Exposure

- ☐ Do you currently carry a cyber liability insurance policy?
- ☐ Have you reviewed recent changes in your policy coverage?
- ☐ Does your insurance require specific security controls to be in place?

5. Vendor & Supply Chain Risk

- ☐ Do you assess third-party vendors for cybersecurity standards?
- ☐ Is vendor access to your network segmented and monitored?
- ☐ Do you require vendors to meet minimum cybersecurity requirements?

Ransomware attacks are a major threat to businesses, with 55% affecting small businesses and average demands reaching \$2.73 million. Tru Technical Partners offers expert, proactive cybersecurity solutions to protect your business.

Book a free, no-obligation 15-minute consultation with founder Truman Roe to assess your risk and get superhero-level protection from ransomware attacks.
